MEAD

VÅR

A dry mead made from early harvested honey from linden blossom, raspberry blossom, apple blossom, and rapeseed, combined with light, refreshing notes of elderflower, lemon balm leaves, and rhubarb stalks. The elderflower and most of the honey come from western Skåne. 12% 145/695:-

SOMMAR

A wide range of flavors shapes this dry mead. An intriguing aroma of buckthorn and a rosy hue from wild raspberries entice the palate, leading to a crisp tartness from quince, beautifully balanced by the smooth yet subtle honey notes of the dry mead. 12% 145/350:-

LIND

A semi-sweet mead with a strong presence of linden blossom honey. The flavor of linden honey becomes intensely flavorful and is sometimes described as minty. 14,5% 145/695:-

SUTTUNGR BREW

Lingon Mead is the oldest type of beverage ever traced in the Nordic region. Using bold heather honey balanced with a more neutral honey and the natural residual sweetness of lingonberries, this mead offers a rustic character with notes of lingonberry, forest, resin, and rich honey tones. 13% 145/695:-

JARLS BREW

A sweet mead made with equal parts honey and water. The honey comes primarily from raspberry blossom and white clover, with a touch of linden honey. 13% 145/695:-

BRANDEN PÅ ORTEN

This very sweet mead is characterized by huge amounts of honey and apples from Sigtuna. The honey from the local bees was blended fresh, while the rest was burned, giving a deeper flavor while retaining the local aroma. 13% 145/695:-

CURIOUS ABOUT MEAD OR HARD TO DECIDE?

Try three meads and one braggot (mölska) of your choice for a trip back to the time of the Vikings, when mead was not just a drink, but a link to the world of the gods. 295.-
